OBJECTIVE

To obtain a position that provides ample opportunity to utilize the skills that I have acquired throughout my studies as a computer science student.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

UNIVERSITY OF CENTRAL FLORIDA, ORLANDO, FLORIDA

Graduated in December 2019

GPA: 3.4

Final project consisted of the development of an application that utilizes GPS coordinates to help people navigate veteran cemeteries. I was the lead front-end developer for the website of the project used to enter the cemetery information into the back-end database through connection of an API. This data included GPS coordinates as well as information on the veterans within the cemetery. The website was built using React.js, CSS, and the Bootstrap framework.

SKILLS

- Experience in web development using React.js and programming languages including HTML, CSS, JavaScript, and JSON
- Experience using GitHub and Git for version control during project development
- Other programming languages:
  - Java
  - C++
  - C
  - Python
